Bode Technology is an ISO/IEC 17043 - accredited proficiency testing provider

# Why Bode IQAS?

## IQAS is Comprehensive, Convenient, and Flexible

- Select the IQAS kit configuration that contains the sample types (neat or mixture) your lab needs
- Report serological and/or DNA results each quarter
- Report autosomal STR, Y-STR, and/or mitochondrial DNA results with each test
- Minimize operational disruptions with a 16-week results submission window
- Receive an email confirming your results have been submitted

## Maintain Accuracy of Results and Minimize Errors

- Results submission forms display the loci in the same order as they appear on the electropherograms for the STR/Y-STR kit(s) used
- Submitted results are uploaded directly into the IQAS database eliminating the need for data entry and minimizing the incidence of transcription errors
- Summary reports are provided to the ANSI National Accreditation Board (ANAB) as requested by participants

## Easily Manage Proficiency Tests Online

- Use the web-based IQAS Proficiency Test Management Portal to order, assign, and track proficiency tests; download results submission forms; and submit results online

### ACCOMMODATE YOUR CURRENT WORKLOAD

IQAS allows up to 16 weeks to submit your results.

# Distribution Schedule

IQAS Distribution	Order Due Date	Shipment Date	Results Due Date	Preliminary Report Issued by	Summary Reports Issued by
2020-Q1	9/3/2019	12/9/2019	4/15/2020	5/15/2020	7/14/2020
