Bode Buccal DNA Collection Systems
Faster, Easier and More Reliable Collections

Bode Buccal™ DNA Collection Systems
The Bode Buccal DNA Collector and Bode Buccal 2 are easy to use direct collection systems. These devices are designed to:

• Simplify collections
• Improve first pass success rates
• Incorporate into manual or automated workflows

Higher Success Rates: The Bode Buccal DNA Collector has Significantly Better First Pass Success Rates than Treated Cards

Comparison of First Pass Success Rates of Field-Collected Samples Processed at Bode Over a 12-Month Period for DNA Databasing Contract Work
