

Speaker: Stephanie Regan, Criminalist and Crime Scene and Laboratory Supervisor, Kauai Police Department

Stephanie Regan currently serves as a Criminalist and the Crime Scene and Laboratory Supervisor at the Kauai Police Department. She specializes in crime scene processing, DNA screening, and mobile device analysis. Ms. Regan graduated from Harvard University, and her previous work at the Harvard Stem Cell Institute and Baylor College of Medicine resulted in multiple publications in CRISPR genome editing and computational neuroscience. Her work with KPD for five and a half years has expanded forensic science capabilities, including the implementation of DNA screening and Rapid DNA technologies. Her work with these systems has resulted in publications, presentations, and textbook contributions. Ms. Regan currently serves on the OSAC Crime Scene Investigation and Reconstruction Subcommittee and ASCLD Rapid DNA Task Group.
